

The Ebbets

The Ebbets: 3,000 sq. ft.

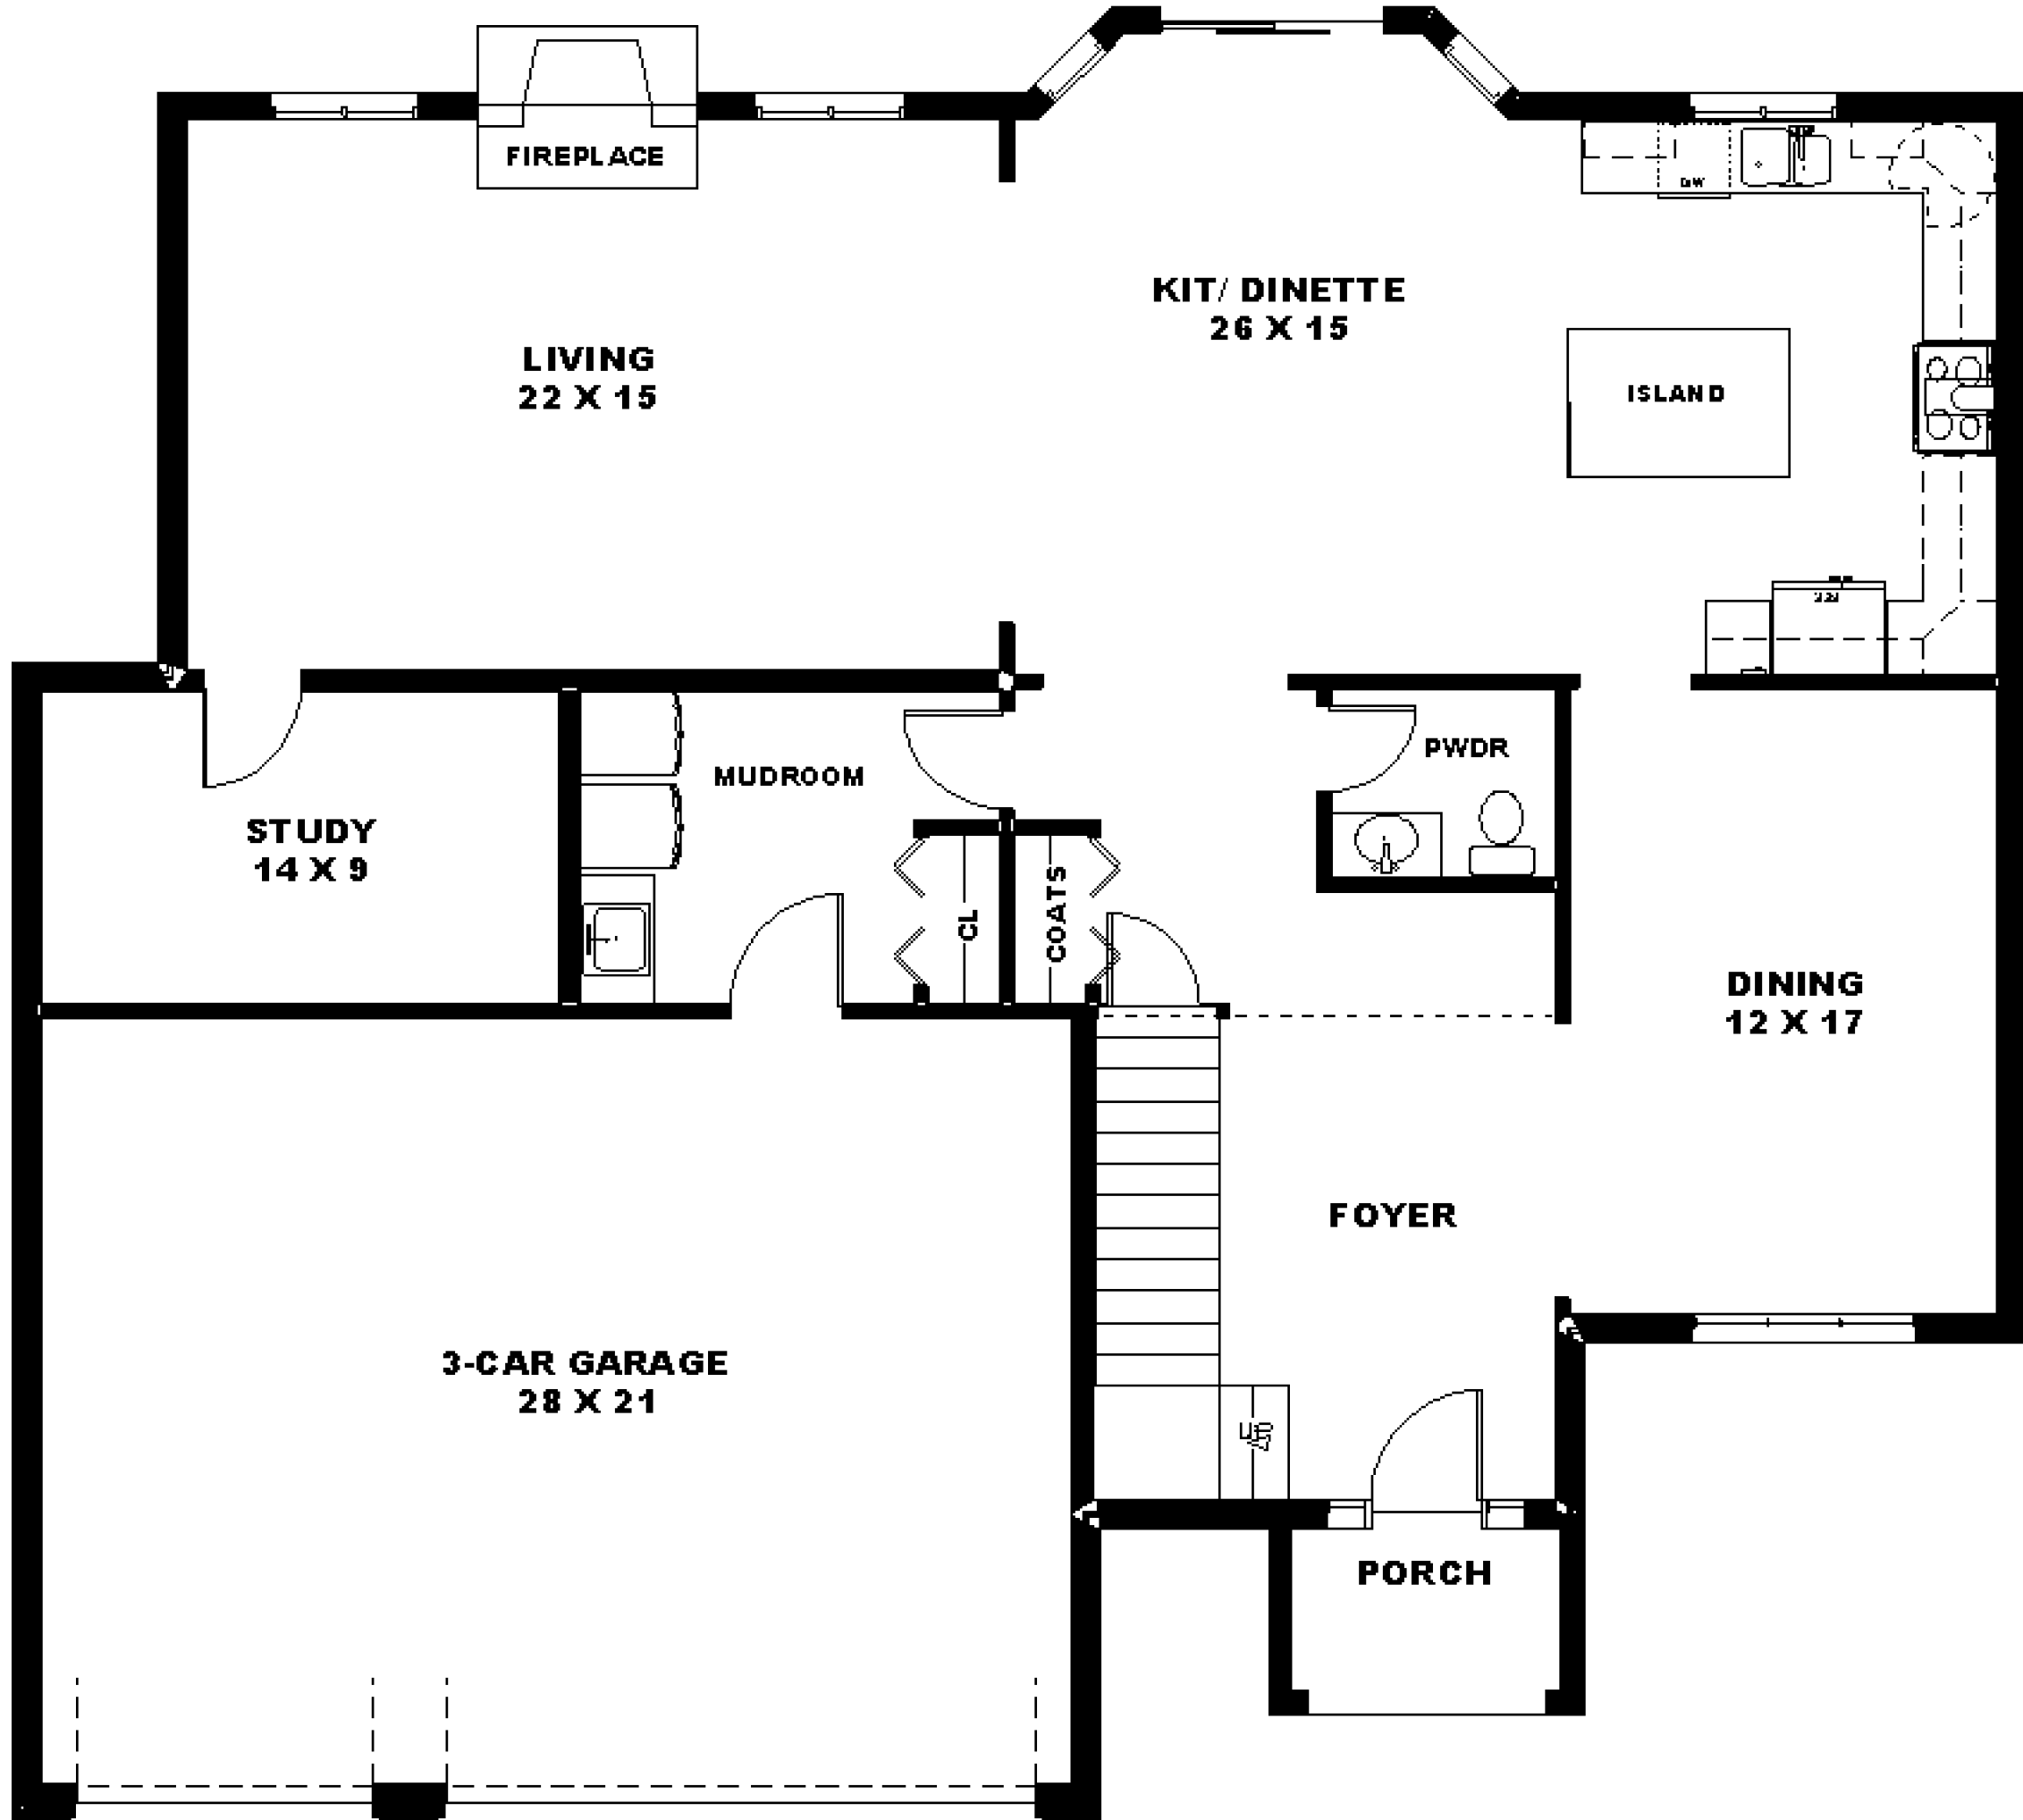

This magnificent two-story home is sheer luxury. Featuring an open floor plan, the gourmet island kitchen flows freely into the beautifully-appointed family room with fireplace- Giving today's families plenty of room to roam.

Flaherty's policy of continual improvement in architectural design and construction considerations requires that the dimensions shown are subject to minor variations. The renderings are an artist's conception and the actual homes may be modified in construction to suit interior, exterior and site considerations. Illustrations may not reflect current exterior features. Please refer to plans and specifications in the sales office for current details. Prices are subject to change without notice.
